BUILDING DEPARTMENT APPROVAL
THIS BUILDING PERMIT DOES NOT BECOME VALID UNTIL SIGNED BY THE BUILDING OFFICIAL AND FEES ARE PAID

Jerome County requires a Building Permit before ANY construction can begin.

Double Fees may be levied whenever construction has begun prior to obtaining a building permit.

Prior to obtaining a building permit, you should determine whether your project meets appropriate zoning requirements and whether there are any floodplains or other engineering restrictions.

All Building Permits require a Zoning Permit (Application included) to be reviewed and approved by the Zoning Administrator. Zoning must be approved before your application will move to the Building Department for review.

Zoning Requirements:

1. Structures under 200 square feet may require a Zoning Permit, but not a Building Permit unless the structure is attached to an existing building, then a Building Permit will be required.
2. Structures over 200 square feet will require a Building Permit.
3. Agricultural buildings will require a Zoning Permit and an AG Siting Permit only.
4. Fire Department letter, if the project is over 150 feet from the main road. An access road to Jerome County Fire Department requirements shall be installed prior to construction.

Current Adopted Codes

2018 International Building Code
2018 International Residential Building Code
2018 International Existing Building Code
2018 International Energy Conservation Code
2018 International Mechanical Code
2018 International Fuel Gas Code

One-story detached accessory structures, provided the floor area is no greater than 200 feet, are exempt from permit.

Design Criteria

Wind Speed: 115 MPH

Wind Exposure: C

Ground Snow Load: 30 PSF

Table R301.5 is amended to require a minimum uniform live load of 40 PSF in habitable attics and sleeping rooms.

Seismic Design Category: C

Presumed Soil Bearing Pressure: 1500 PSF without soils investigation

Frost Depth: 24 inches

Elevation: 4048 feet above sea level

Climate Zone: 5B

R105.5 **EXPIRATION:** Every permit issued shall become invalid unless the work authorized by such permit is commenced within **180 days** after its issuance, or if the work authorized by such permit is suspended or abandoned for a period of **180 days** after the time the work is commenced. The building official is authorized to grant, in writing, one or more extensions of time, for periods not more than 180 days each. The extension shall be requested in writing and justifiable cause demonstrated.
